1. [ ] Comment. [ ] the train probably carried units of the 63d AAA Div (US) and went to Eberswalde [ ] 25X1  
 [ ] A previous report indicated the train loaded with light AA guns, which would check with previous information inasmuch as Jueterbog has been utilized for firing/exclusively by light AAA units. 25X1

2. [ ] Comment. [ ] in early August, a detail of the 8th Gds Mecz Div, possibly of the 21st Gds Mecz Regt, was at the Strassburg Kaserne. In this case, however, the AA guns observed should have been AA machine guns. It is not impossible that, in late July and early August, the division stationed at Koenigsbrueck exchanged the guard details in Grimma. Otherwise, the information, [ ] does not indicate any changes at the post over a report of early July. [ ]
